

Greetings everyone

As promised, the Spring Aviation Seminar has been setup with Transport Canada as a virtual seminar. Poster below with the same topics we had planned last year but did not present due to COVID.

There are a couple of items you need to know:

1) I have 42 confirmed so far (Mar. 10) so likely we will only need one seminar on Sat. April 17. However, you must re-register directly with Transport at the email in their poster below. This is required for you to get your recurrent sticker after the seminar.

2) I have also arranged with Dr. Magee again to provide another questions and answers discussion virtually. He will do his presentation and interaction at about noon, after the two Transport presentations.

Guylain of Discount Avionics has offered an ELT discount coupon to all participants so we will arrange to get the coupons to all registered participants.

Unfortunately you will not be getting our great box lunch or the quality face-to-face time with other pilots this time but hopefully COVID will decline for next year.

Cheers and stay safe.

Earle

General Aviation Safety Seminars

Upcoming seminars

Transport Canada Virtual Event for Muskoka Flying Club

Date: Saturday, April 17, 2021

Time: 9:00am till noon

Topics: Approach & Landing and Maintenance & Airworthiness

Registration: Please email PAStandards-Normes@tc.gc.ca by April 13th with the subject "April 17th Seminar Registration"

These **FREE** seminars provide pilots with tools, tips and best practices to help make well-informed decisions. Attending a seminar will help keep your skills current and is also a way to meet the 2-year recurrent training requirement.
